

NOTE: this is a supplement instruction document showing alternate mounting using a Silescent Two – Plate Mount Kit; reference the particular Fixtures mounting instructions to complete the installation.

1. Turn off power to fixture.
2. Remove existing fixture (if any)
3. Insert upper plate into opening
4. Attach lighting circuit to junction box as per NEC and local regulations.
5. Attach lower plate to upper plate with provided screws.
6. Make electrical connections to light per the "Electrical Installation" section of the Installation Instructions
7. Attach Silescent Fixture to the junction box on the mounting assembly with hardware supplied with the fixture (*reference corresponding Silescent Fixture Installation Instructions*).
