

# INSTALLATION INSTRUCTION

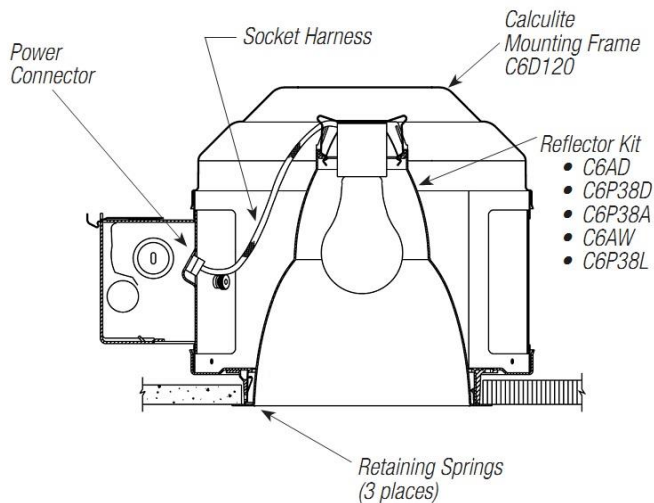

## Calculite Retrofit

### Silescent LED Fixtures

**NOTE:** this is a supplement instruction document showing the retrofit of a Calculite fixture; reference the particular Fixture mounting instructions to complete the installation.

1. Turn off power to fixture.
2. Remove reflector trim assembly from mounting frame by snapping out the three retaining springs located around the inside of the mounting frame aperture. This assembly is no longer needed. (Figure 1)
3. Disconnect Socket Harness from Power Connector located inside can. (Figure 1)
4. Snap the supplied Adaptor Plate into mounting fixture. (Figure 2)
5. Install supplied Silescent Power Connector to mating power connector located inside Mounting Frame. Make electrical connections between bare leads of the Silescent Power Connector and Silescent Light Fixture as per "Electrical Installation" section of the Installation Instructions.
6. Attach Silescent Fixture to direct to the mounting plate with supplied hardware (*reference corresponding Silescent Fixture for additional Installation Instructions*).
