PRODUCT DETAILS

Silescent Multi-Zone capacitive touch wall dimmers brings simple zone control capabilities to lighting and provides smooth, full range dimming for Silescent SimpleNET "DC" LED Lighting Fixtures. Featuring multi-zone control capability, this stylish device easily allows the user to quickly switch between zones with a simple touch allowing dimming control for that zone. Additionally, with one touch, the user can gain control of all zones related to that switch.

SPECIFICATIONS & FEATURES

- Digital control – via Silescent SimpleNet digital communication.
- Capacitive touch technology.
- Three button zone select (Zone 1/2 & ALL).
- Dim level setting allows you to visually see your exact light level and energy savings for up to three zones.
- Backlighting when OFF, provides for easy location in dark rooms or hallways.
- Flush design allows easy cleaning with no creases or gaps for dirt or dust collection.
- Single gang plastic utility box (recommended).
- Installs into standard single gang wall switch junction boxes (plastic recommended).
- Cat5e with RJ45 connector interface for power and SimpleNet connections.
- May be configured for wireless communication when used with Silescent RF/SimpleNET Module.
- Available in White or Beige.

WARRANTY – 5 year limited warranty. Full warranty details available at www.silescent.com
